DETAILED ACTION

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Edward Kessler on 05/01/2006.

The application has been amended as follows:

Claim 8, 23-24 and 29-30 has been deleted.

Allowable Subject Matter

Claims 4-5, 9, 11-12, 14, 16, 19-22, 25-28 and 31-33 are allowed.

The following is an examiner's statement of reasons for allowance:

Claims 4-5, 9 and 20-22 are allowed over the prior art of record. The prior art of record considered individually or in combination, fails to fairly teach or suggest the claimed circuit/method comprising, among other limitations and unobvious limitations of "the first input being adapted to receive a high frequency signal in the Gigahertz range" and "the second input being adapted to receive a low frequency signal in the Megahertz range" structurally and functionally interconnected with other limitations in the manner as cited in the claims.

Claims 11-12, 14, 16, 19, 25-28 and 31-33 are allowed over the prior art of record. The prior art of record considered individually or in combination, fails to fairly teach or suggest the claimed circuit/method comprising, among other limitations and unobvious limitations of "producing a stepped power control signal having a plurality of power control steps, wherein producing each one of the plurality of steps includes: producing a step voltage, applying a time delay to the step voltage" structurally and functionally interconnected with other limitations in the manner as cited in the claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
